Intellore Systems Pvt Ltd,
Off No 7 & 8, Krishna Shanti Residency, S. No. 346 & 347,
Bavdhan Budruk, Taluka Mulshi, Pune – 411 021, Maharashtra.

Job Summary:

We are looking for a motivated PHP - Laravel developer to come join our agile team of professionals. The PHP Developer would be responsible for managing back-end services and the interchange of data between the server and the users. Your primary focus will be the development of all server-side logic, definition, and maintenance of the central database, and ensuring high performance and responsiveness to requests from the front-end. You will also be responsible for integrating the front-end elements built by your co-workers into the application. Therefore, a basic understanding of front-end technologies is necessary as well. You will also be responsible for establishing reliable communication with other web services using MQTT.

Responsibilities

1. Integration of user-facing elements developed by front-end developers
2. Build efficient, testable, and reusable PHP modules

3. Solve complex performance problems and architectural challenges
4. Integration of data storage solutions
5. Should be a quick learner.

Skills and Qualifications

1. Good understanding of object-oriented programming (OOP) and computer science foundations
2. Hands on experience of Stacks: LAMP/WAMP, PHP - Laravel (5.5+) (min 2 years)
3. Hands on experience of .NET language C#. (Minimum 1 year)
4. Hands on experience of MySQL
5. REST API's and SOLID principles
6. Good knowledge of using JavaScript, jQuery, Bootstrap, HTML5.0, CSS3, Ajax
7. Hands on experience on Laravel API (REST, RPC)
8. Knowledge of Graphs and Charts like Canvas js OR D3 Chart.
9. Familiarity with writing Unit test cases
10. Understanding of Agile methodologies
11. MCA/ BE- Computers with 4 years' experience in Web development.

Added Advantage:

1. Certification of Azure-AWS-GCP
2. MEAN (Node)s
3. .NET Core
4. Networking protocol (Socket programming in PHP)
